

Dear Committee Members,

Beltline Electric Co. is a fifty-two year old electrical contractor operating in Western Kentucky. We employ up to one hundred construction electricians during our annual peaks. Because of our work at Domtar Paper Mill in Hawesville, Ky. It has come to our attention how valuable the Alternate Fuel Tax Credit has been to the survival of the paper industry during the current economic situation. We urge your consideration on this matter.

Terry W Gipson
Vice President / Co-Owner
