

Hello,

My name is Tom Hintz and I am employed at Domtar Corporation in Nekoosa Wisconsin. I feel strongly that the US Senate Finance Committee should keep the original deadline of December 31st, 2009 for the Alternative Fuel Tax Credit. During these troubling economic times we need this "stimulus" to survive. The Port Edwards Domtar mill was closed last year with 500 employees put on the street. Central Wisconsin does not need any more closures during these hard times. The credit lasting till the end of the year might be enough to pull us through.

Thank you,

Thomas Hintz

Maintenance Supervisor
