

To whom it my concern,

My name is Danny Merritt and my wifes name is Shanda Merritt and I work at the Catalyst paper mill in Snowflake AZ which is being affected by the black liquor tax credit loophole that other mills have been receiving and causing our mill to have significant down time. Which has caused me and my family many problems and the black liquor tax credit needs to end before we loose our home and cause many more down fall for others and the community. I have lived in this area my whole life my dad and grandfather worked at this paper mill until my dad died and my grandpa retired. I have worked at this mill for 13 years and it breaks my heart that this mill might have to shut down because of a tax credit. If this mill shuts down it will have a significant impact not just in our town but several surrounding towns as well. Your help and support is much appreciated.Thank you.
