Subject: Re: Educational Grant for Grand Rounds

Dear [redacted],

Thanks so much for your unrestricted educational grant to support Grand Rounds in our Department. Also thanks for your kind words about my consulting to Otsuka in the past. My decision is firm to markedly limit my consulting and service on Scientific Advisory Boards with pharmaceutical companies. I wish you and your colleagues at Otsuka success in your future endeavors. I would be pleased to discuss taking part in accredited CME activities on occasion.

Charlie

Hi Charlie:
Wishing you and [redacted] a wonderful new year!

I wanted to pass a note your way to let you know that Otsuka contributed \$5500 to Emory Department of Psychiatry Grand Rounds. It looks like you have a great line up, and I hope that this contribution is helpful.

On a separate note, I learned from [redacted] that you will limit your consulting services, and wish that we had had the opportunity to discuss this in more detail at ACNP. For what it's worth, I believe that this is truly unfortunate for those of us in CNS drug development, and for the field, in general. I feel certain that in the future, as in the past, we will benefit greatly from your unparalleled expertise and your willingness to share that.

Let's make it a point to connect at the next meeting.

All the best,
[redacted]
