Dear [REDACTED]

Thank you so much for this information. Please consider this email proof of receipt. I will be asking the Committee to provide any feedback reviewers may have in the spirit of process improvement.

Kind regards,

Subject: MPSC: Additional information request for ABO case
Importance: High

Dear Ms. [REDACTED]

I am the Compliance Operations Analyst facilitating CADN's ABO discrepancy case review (donor [REDACTED] for the Membership and Professional Standards Committee. Reviewers have asked a few follow up questions so they can complete this case review next week. I don't need any additional documentation unless you want to provide it, just narrative responses to each of the bulleted questions below. Can someone provide these responses to me **by noon on Monday, June 19th**? I appreciate any assistance your staff can provide in this matter.

- Are there any updates on if the ABO genotyping mentioned in the CAP is available and logistically possible? If so, is CADN using that testing?
- Which staff/roles are considered a Qualified Health Care Professional who will make independent determinations of blood type? Would one of these Qualified Health Care Professionals include someone with blood banking/center background or transfusion medicine?
- Have there been any updates to the CAP since CADN's last updated submission dated January 14th? If so, can you provide a summary of those updates?

If you have any questions about this case review, or you would like me to call you after the full committee has determined action in this case, please let me know.

Thank you,

[REDACTED]
