COMMITTEE ON FINANCE

WASHINGTON, DC 20510-6200

RUSSELL SULLIVAN, STAFF DIRECTOR
CHRIS CAMPBELL, REPUBLICAN STAFF DIRECTOR

May 8, 2012

Dr. Humayun J. Chaudhy
President and Chief Executive Officer
Federation of State Medical Boards
400 Fuller Wisser Road, Suite 300
Euless, TX 76039

Dear Dr. Chaudy:

As Chairman and a senior member of the Senate Finance Committee, we have a responsibility to the more than 100 million Americans who receive health care under Medicare, Medicaid, and CHIP. As part of that responsibility, this Committee has investigated the marketing practices of pharmaceutical and medical device companies as well as their relationships with physicians and non-profit medical organizations.

It is clear that the United States is suffering from an epidemic of accidental deaths and addiction resulting from the increased sale and use of powerful narcotic painkillers such as Oxycontin (oxycodone), Vicodin (hydrocodone), and Opana (oxymorphone). According to CDC data, “more than 40% (14,800)” of the “36,500 drug poisoning deaths in 2008” were related to opioid-based prescription painkillers.¹ Deaths from these drugs rose more rapidly, “from about 4,000 to 14,800” between 1999 and 2008, than any other class of drugs,² and now kill more people than heroin and cocaine combined.³ More people in the United States now die from drugs than car accidents as a result of this new epidemic.⁴ Additionally, the CDC reports that improper “use of prescription painkillers costs health insurers up to \$72.5 billion annually in direct health care costs.”⁵

In Montana, prescription drug abuse is characterized by the state’s Department of Justice as an “invisible epidemic” killing at least 300 people per year and contributing to increases in

⁵ International Business Times, “Prescription Painkiller Overdoses Cost Insurers \$72.5 Billion Yearly: CDC,” November 3, 2011 at <http://www.ibtimes.com/articles/242437/20111103/prescription-painkiller-overdoses-cost-insurers-72-5.htm>.

addiction and crime.⁶ The University of Montana Bureau of Business and Economic Research estimated that prescription drug abuse is costing the state \$20 million annually in additional law enforcement, social services, and lost productivity.⁷

In Iowa, “the use of opioid painkillers such as hydrocodone and oxycodone has increased dramatically in the last decade,” according to the Governor’s Office of Drug Control Policy. Annual overdose deaths from opioids “increased more than 1,233% from 3 deaths in 2000 to 40 deaths in 2009.”⁸ Data from Iowa’s prescription drug monitoring program demonstrates that in 2010, 89,500,000 doses of hydrocodone and oxycodone were prescribed totaling nearly 40% of all controlled substance prescriptions.⁹

Concurrent with the growing epidemic, the *New York Times* reports that, based on federal data, “over the last decade, the number of prescriptions for the strongest opioids has increased nearly fourfold, with only limited evidence of their long-term effectiveness or risks” while “[d]ata suggest that hundreds of thousands of patients nationwide may be on potentially dangerous doses.”¹⁰

There is growing evidence pharmaceutical companies that manufacture and market opioids may be responsible, at least in part, for this epidemic by promoting misleading information about the drugs’ safety and effectiveness. Recent investigative reporting from the *Milwaukee Journal Sentinel/MedPage Today* and *ProPublica* revealed extensive ties between companies that manufacture and market opioids and non-profit organizations such as the American Pain Foundation, the American Academy of Pain Medicine, the Federation of State Medical Boards, the University of Wisconsin Pain and Policy Study Group, and the Joint Commission.

According to the *Milwaukee Journal Sentinel/MedPage Today*, a “network of national organizations and researchers with financial connections to the makers of narcotic painkillers...helped create a body of dubious information” favoring opioids “that can be found in prescribing guidelines, patient literature, position statements, books and doctor education courses.”¹¹ Specifically, the *Sentinel* reported that the Federation of State Medical Boards, with financial support from opioid manufacturers, distributed more than 160,000 copies of a model policy book that drew criticism from doctors because “it failed to point out the lack of science supporting the use of opioids for chronic, non cancer pain.”¹²

Although it is critical that patients continue to have access to opioids to treat serious pain, pharmaceutical companies and health care organizations must distribute accurate information about these drugs in order to prevent improper use and diversion to drug abusers.

¹² Id.

As part of our effort to understand the relationship between opioid manufacturers and non-profit health care organizations, please provide the following information:

- 1) Provide a detailed account of all payments/transfers received from all organizations that develop, manufacture, produce, market, or promote the use of opioid-based drugs from 1997 to the present. For each payment identified, provide:
 - i. Date of payment
 - ii. Payment description (CME, royalty, honorarium, research support, etc.)
 - iii. Amount of payment
 - iv. Year end or year-to-date payment total and cumulative total payments for each organization or individual.
 - v. For each year a payment was received, the percentage of funding from organizations identified above relative to total revenue.
- 2) Identify any grants or financial transfers used to fund the production of the book, “Responsible Opioid Prescribing” by Dr. Scott M. Fishman. Provide the date, amount, and source of each grant.
- 3) How much revenue was generated by sales of “Responsible Opioid Prescribing?” Provide amounts by year, state, and total.
- 4) List each state that has distributed copies of “Responsible Opioid Prescribing” and the number of copies distributed.
- 5) Provide the names of any people or organizations, other than Federation of State Medical Boards employees or Dr. Scott M. Fishman, involved in writing or editing the content of “Responsible Opioid Prescribing.”
 - i. For each person or organization identified, list any financial transfers between the identified person or organization and the Federation of State Medical Boards.
 - ii. For each individual or organization identified, provide a description of the involvement.
- 6) Please identify the name, job title, job description, and dates employed of any Federation of State Medical Boards employees who worked on distributing this book.

In cooperating with the Committee’s review, no documents, records, data, or other information related to these matters, either directly or indirectly, shall be destroyed, modified, removed, or otherwise made inaccessible to the Committee.

We look forward to hearing from you by no later than June 8, 2012. All documents responsive to this request should be sent electronically, on a disc, in searchable PDF format to

my staff. If you have any questions, please do not hesitate to contact Christopher Law with Senator Baucus at (202) 224-4515 or Erika Smith with Senator Grassley at (202) 224-5225.

Sincerely,

Charles E. Grassley
Senator

Max Baucus
Chairman
