## LETTER OF TRANSMITTAL

---

UNITED STATES TARIFF COMMISSION,  
Washington, September 3, 1929.

HON. REED SMOOT,  
*Chairman Committee on Finance,  
United States Senate, Washington, D. C.*

MY DEAR SENATOR SMOOT: There are transmitted herewith 16 tables prepared by the United States Tariff Commission, which show by schedules and paragraphs a comparison of the rates of duty under the tariff act of 1922 and as proposed in the bill H. R. 2667, both as passed by the House of Representatives and as reported with amendments by the Finance Committee to the Senate. The first table shows a summary by schedules and the remaining tables show, by paragraphs, the rates in schedules 1 to 15, numbered according to the pending bill.

The imports for the calendar year 1928 are used as the basis for the calculations contained in the accompanying tables and include all imports during that year under the dutiable paragraphs. The computed duties shown in the tables were calculated by applying to the 1928 imports the several rates of duty under the act of 1922, under the pending bill H. R. 2667 as passed by the House, and under the same bill as reported to the Senate by the Finance Committee.

The imports for 1928 as used were compiled by taking for each schedule and paragraph of the dutiable list the articles actually dutiable under the tariff act of 1922 and adding thereto the amount of imports of all articles transferred from the free list to the dutiable list by the pending bill as passed by the House or as reported by the Senate committee. The imports of articles proposed in the bill to be transferred to the free list remain in the basic figures of imports for 1928. Thus transfers from and to the free list were taken into consideration and all articles dutiable under either the present law or the pending bill or the Senate committee amendments are included in the imports for 1928. For these reasons the averages of imports and of the ad valorem duties for each schedule as a whole and for those paragraphs in which such transfers have been made will not agree with published statistics of imports in 1928 under the present law.

At the end of some of the schedules statistics are shown for certain paragraphs for which comparisons could not be drawn because of the differences in classification in the pending bill as compared with the present law.

Very truly yours,

ALFRED P. DENNIS,  
*Acting Chairman.*

<sup>1</sup> Rate on paintbrush handles changed by presidential proclamation from 33 1/4 per cent to 16 1/4 per cent ad valorem effective Nov. 13, 1926.

<sup>a</sup> Includes bent-wood furniture for which H. R. 2667 provides a rate of 55 per cent ad valorem. As import data are not segregated to show the proportion of bent-wood furniture included, duties to show the effect of H. R. 2667 have been computed on the basis of minimum increase—40 per cent ad valorem. This is the rate which will probably apply to the bulk of the imports.

			Total, Schedule 10.....			132,773,016

<sup>1</sup> Rates of duty are not shown where more than one rate is involved

\* When bleached, dyed, or otherwise treated, an additional duty of 2 cents per pound is levied. This additional duty is not included in the computed duty under H. R. 2667.

<sup>2</sup> See figures at end of schedule for other imports of cordage.

<sup>3</sup> Duty shall be the same rate as is imposed upon any of the threads, twines, or cord of which the mesh is made, plus 10 per cent ad valorem. As statistics do not show the value of the thread, the rate of 50 per cent ad valorem has been applied to the value of the nets

1 Rates of duty are not shown where more than one rate is involved  
 • Application of various rates based upon analysis of invoice data  
 • Senate bill provides for additional 50 cents per pound on yarns of 20 turns twist per inch. It is estimated 144,206 pounds, (value \$176,364), would be at this rate.  
 • Includes rayon sewing thread, etc., transferred under H. R. 2667 to par. 1304.  
 • Rayon silk noils were held dutiable as rayon waste under T. D. 41362.  
 • Includes small amounts of cellulose acetate rayon waste transferred under H. R. 2667 to par. 31.

<sup>1</sup> Under H. R. 2667 rayon nolls carry a higher duty than waste. As import statistics are not segregated, the effect of this increase can not be shown.

<sup>2</sup> For items for which duties can not be compared see figure for paragraph 1302 at end of schedule.

<sup>3</sup> Imports not segregated included in "plied rayon yarns" in paragraph 1301.

<sup>4</sup> Duties can not be compared—see composite total for "sundry imports of rayon and manufactures of" at end of schedule.

<sup>5</sup> Figures given do not cover knit fabrics and knit goods of artificial horsehair, visca, or cellophane which are included in the composite total for "Sundry imports of rayon and manufactures of" at end of schedule.
