

FINANCE COMMITTEE ALLOCATION OF BUDGET TOTALS—
FY 1993

OCTOBER 8 (legislative day, SEPTEMBER 30), 1992.—Ordered to be printed

Mr. BENTSEN, from the Committee on Finance,
submitted the following

REPORT

[Pursuant to section 602(b) of the Congressional Budget Act of 1974]

Pursuant to section 602(b) of the Congressional Budget Act of 1974, as amended, the Committee on Finance reports to the Senate the following allocation of the amounts which were allocated to the Committee pursuant to section 602(a) of such Act as set forth in the Joint Explanatory Statement of the Committee on Conference on H. Con. Res. 287, the concurrent resolution on the budget for fiscal year 1993 (H. Rept. 102-529, pp. 43-44).

The allocation in this report is consistent with action to date by the Committee on Finance and by the Senate on matters within the jurisdiction of the Committee. The Committee expects to file revised reports as may become necessary to accommodate any future action.

Section 602(b) of the Congressional Budget Act requires that each committee subdivide its 602(a) allocations among its subcommittees or among programs over which it has jurisdiction and further subdivide the amounts between "controllable amounts" and "all other amounts". The Committee elects for purposes of this report to utilize the subcommittee method of allocation. The Committee may or may not utilize this same method for future reports. The Committee notes that the Budget Act does not define the term "controllable", but it is commonly understood to refer to the distinction between those items which are subject to discretionary appropriations action and those items which are funded from permanent appropriations or which are of a mandatory nature even though unded through annual appropriations acts. Under the conventions employed in allocating funds to the Committee on Finance pursuant to section 602(a) of the Budget Act, all amounts so allocated are within the category of "all other amounts."
