Dear Mr. Gartrell:

I have attached the information that you have requested on the Idaho Medicaid Drug Spend for Calendar Year 2014 for the top 25 drug NDCs. You had requested WAC pricing, but since Idaho reimburses using an AAAC (average actual acquisition cost) I have included a second spread sheet with that pricing: If there is a blank in the AAC column, we are reimbursing at WAC.

Additional Information Requested:

- Idaho Medicaid does not have any managed care contracts for the drug program so is 100% fee for service and so the spreadsheet represents all of our recipients.
- The number of covered lives in Idaho Medicaid for 2014 was 274,541. Of those 59,327 were utilizers of prescription drugs.
- Idaho Medicaid does not currently have any supplemental agreements with Gilead for Sovaldi or Harvoni. We are in negotiation as a TOP\$ participant for possible supplemental agreements in the future.
- Idaho Medicaid did submit a supplemental budget request for Hepatitis C treatments.
- Idaho has been unable to get a good estimate of the number of HCV patients in the Medicaid program.

If there is any other information we can provide, please don't hesitate to contact me.

Sincerely,

Tami Eide, Pharm.D, BCPS
Idaho Medicaid Pharmacy Program Manager
